

Bearing Witness at ICE

Every Wednesday 11am-1pm

What to expect if you're a marshal:

1. Arrive early to the event (around 10:45am) so we can coordinate together as a marshal team.
2. Form a general perimeter around the protest so we are able to see everything going on.
3. Stay alert for any activity that might jeopardize the peace and safety of the protest. This could be a heckler, a crowd of fellow protesters closely following an ICE van, or someone who looks like they might need to sit down and drink some water. Try to monitor anything that could lead to an escalation or an unsafe situation.
4. During the march, we will have marshals at the front and back, covering each intersection, and also interspersed with the crowd.
5. During the march, people might approach you with questions. Do your best to answer them and, if you need help, signal another marshal.

Above all, we are there to help ensure that these protests are SAFE and PEACEFUL for EVERYONE. So far, they have been, and we aim to keep it that way. Thanks!
